Computational Intelligence

Andrea Calabrese

andrea.calabrese@polito.it

Hand it over. That thing, your Github repository

Submit your repos!

- <https://docs.google.com/spreadsheets/d/1ojzatmkNDZnjrYL-6u2wXQqvJaBA9dhzJ2KQFca6oVE/edit?usp=sharing>
- Write your names and your github repo
 - Git or html links are both fine

First...

- <https://github.com/squillero/computational-intelligence.git>
- Pull request = “I follow the course”
- The more you follow the course...
- ... the shorter the oral exam (you are so many! Wow!)

Set covering

- Minimize the number of sets
- You saw
 - Depth first
 - Breadth first
 - Best first (greedy)
- Now it's time for A star to rise

Set covering

- A^*
 - Heuristic H drives the algorithm
 - Admissible
 - Monotonic
 - Build a new H
 - Consider the old H (distance)
 - What about “special sets”?
 - What about the order of the sets?

Deadline

Thursday, 26/10/2023 h23:59 AOE

(dd/mm/yyyy)

You got a Star!
